

Fall Detector Pendant

An advanced pendant offering cutting-edge fall detection capabilities and up to a 300 metre range.

Suitable for those who are living or working alone and are at risk of falls.

Features:

- Pendant range to alarm base of approx. 300 metres.
- Ideal solution for those who live or work alone.
- Pendant will sound a pre-alarm for 15 seconds before sending an alert.
- Unique shake-to-cancel feature.
- The pendant will flash a red light if the alarm has been activated.
- The detection of a fall is based on cutting-edge technology ensuring significant impact falls are registered.
- Modern design significantly reduces instances of false alarms.
- Pendant is water resistant.
- Supplied with a clip-on attachment and a surgical stainless-steel neck chain.

The Fall Detector Pendant is an optional extra. For non-funded clients an additional charge may apply.

This pendant is compatible with Safety Link's EVE 3+ multi-path alarm.
