

EVE 3+ Alarm

An advanced alarm that offers a long range pendant of up to 300 metres and has the ability to operate on either a landline or the mobile network.

Alerts are received at Safety Link's 24 hour/7 days a week monitoring centre. Staff will respond and contact the person through the open voice facility and send help when required.

About this product's features:

- Pendant range to alarm base of approx. 300 metres.
- Ideal solution when a landline is not available.
- Network capability to operate on either landline or via the mobile network.
- Built in contingency to automatically switch from landline operation to 3G wireless operation if the landline fails.
- Wireless network redundancy to use either Telstra or Optus network depending on availability.
- No additional cost to clients for contingency operation.
- Battery backup of 50 hours minimum.
- Daily Call function (selectable).
- Water resistant pendant can be provided as a neck chain or wrist band.
- The alarm is intended for persons at risk, typically being aged, frail or living alone.
- Alarm is NBN (National Broadband Network) capable.
