

Welcome to Safety Link

Congratulations on choosing Safety Link and the GO Trek as your mobile alarm service. For your information, the following items are included in the GO Trek box:

- The GO Trek device
- The charging platform, a USB cable, and a plug pack
- A split ring for those that wish to attach the device to a key-ring
- This **GO Trek Welcome and Quick Start Guide**
- A **GO Trek System Guide** which explains how the device operates. Please keep the guide in a safe place for future reference
- A **Test Reminder Magnet** which can be placed on your refrigerator as a reminder to do your monthly test and recharge the GO Trek
- A **Conditions of Use** document

Thank you for choosing Safety Link's GO Trek, we trust you will enjoy the independence and peace-of-mind that GO Trek offers.

Overleaf you will find a Quick Start Guide for the initial set-up of GO Trek.

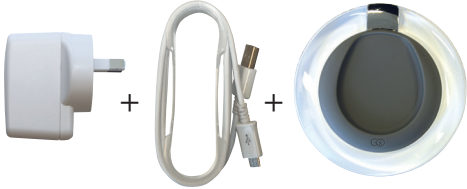

Please contact Safety Link with any questions regarding the GO Trek system on 1800 813 617, or email: cscdept@safetylink.org.au

Yours sincerely,

The Safety Link Team

Quick Start Guide

Step	Action	Advice
1	Remove all items from the box	Remove the GO Trek device and charging equipment from the box
2	Find a suitable location for the charging platform	The GO Trek requires an available power point
3	Connect the charging base and the power pack using the supplied cable	
4	Plug the connected power pack into the power point	You can now turn the power point switch to ON
5	Place the GO Trek (text facing down) in the charging base to charge correctly	If inserted correctly, the charging base will flash blue during charging 
6	IMPORTANT: To finalise the set-up of your new GO Trek, please call our Client Services team on 1800 444 033 between 8.30am and 5pm AEST, Monday to Friday	You will receive instructions on GO Trek's operation and be asked to perform a test Please Note: GO Trek is NOT operational until you have completed this step
